HTML5 / CSS3
SCSS / SASS
User Interface Design
Web App Development
Javascript / Angular / React
Typescript / Jasmine / Mocha
Test Driven Development
Excellent Communicator
Team Player
AWS Services
AWS CLI / AWS Cloudformation
Serverless / Node JS
AWS Cognito
Sketch / Trello / Slack

WORK EXPERIENCE

Front End Web Developer
Valtira | 2015 - 2019

My roles at Valtira pertained to extensive experience with web application and website design and development, frequent client meetings and performing demos. During the development lifecycle we followed an AGILE software development approach.
Apart from leading on many full scale development projects from start to finish each of us were responsible for maintaining consultation for client support on various projects. We used Trello and Harvest to track our time and sprint, project progress.

Front End Web Developer
Minneapolis Community & Technical College | 2013 - 2015

I developed the navigation functionality for our graduating class' site as well as the single creatives page HTML markup with CSS and Jquery. This site was first developed from a static site with Bootstrap and was then moved into a WordPress site. We worked on developing the site with a custom Wordpress template written in PHP.

Front End Web Developer (Internship)
Word Up Web - Digital Marketing | 2014 - 2014

Collaborated with a team of other web and graphic designers. I developed the logo, color scheme and assisted with web layout and positioning among the team. I created the custom Wordpress template with PHP for the upcoming Wordpress (Wordcamp) event.

EDUCATION

Associate of Applied Science (x2) Web & Interactive Media & Graphic Design Print Media
Minneapolis Community & Technical College 2013 -2015

At Minneapolis Technical I first started to love coding by taking the intro HTML/CSS course. Immedietely I loved how the UI is the first thing the customer sees and how much of an impact that has on the experience. I also took courses in Javascript development, PHP, MySQL programming, and advanced Wordpress custom template programming.

Bachelors Degree (x2) Philosophy & Fine Art
University of Minnesota | 2006- 2009

In my time at the University I participated in the Philosophy club after classes once a week where we discussed symbolic logic operatives, and great philosophers like Plato, Socrates with other students and professors. I recieved multiple recommendation letters from my Art and Philosophy professors here at the University of Minnesota.

EXTRA CIRUCULARS

AWS Certified Developer Associate
Currently Studying / Preparing to take exam 09/04/19

An AWS developer is responsible for setting up, maintaining, and evolving the cloud infrastructure of web applications. AWS developers are expected to understand the core AWS services and apply best practices regarding security and scalability.

Web Development Research Volunteer
Midwest Javascript Conference | Aug 2018

I Attended this Javascript conference to meet other developers across the country and discussed best practices, the evolution of the web and application development. The event included attending talks on Angular, React, Node JS development and more. Midwest JS is a premier technology conference focused on the Javascript ecosystem.
